

Queryon 2023 Highlights

Queryon delivered strong growth in 2023.

We had our company retreat in **Talkeetna, Alaska**. With our Romanian employee, Rares, travelling the longest to meet us – 5,000 miles.

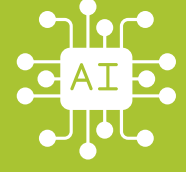

Helped a global NGO focus on building a sustainable urban world.

Launched a data analytics system for one of the largest nonprofits in the US.

Delivered reporting for PIKKA, a net 0 low carbon intensity major capital project in Alaska.

Joined the AI race with the launch of our new product AI Lens, for Power BI.

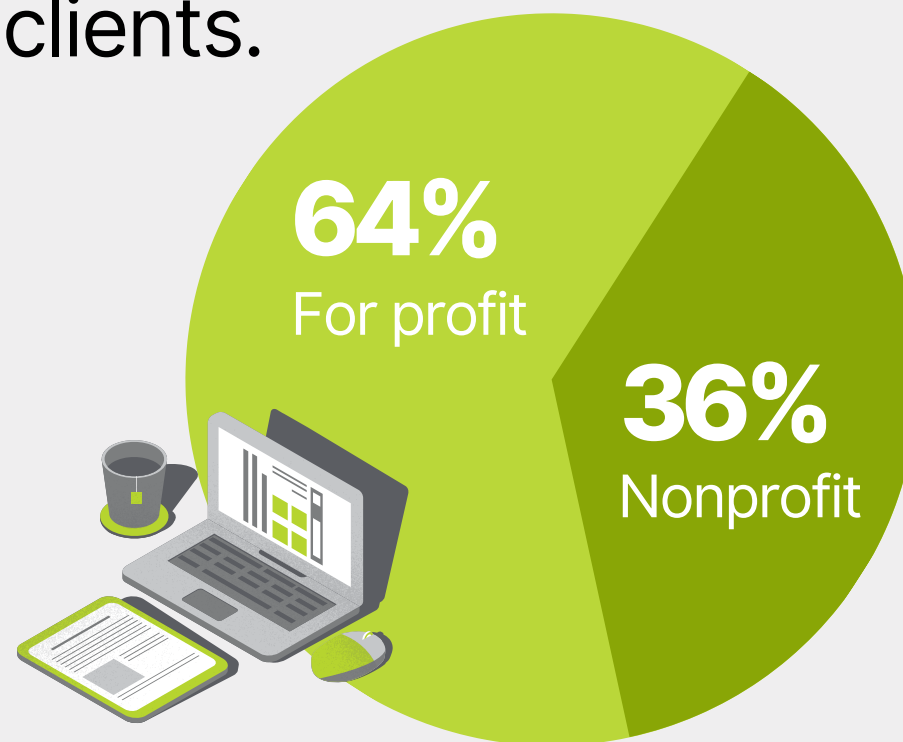

Continued momentum

The integration of AI, marked by the introduction of Open AI and Chat GPT, has significantly influenced the realm of Data Analytics. Recognizing the close relationship between Data Analytics and AI, we swiftly embraced AI technologies, incorporating them seamlessly into our own practices.

\$2.5 million

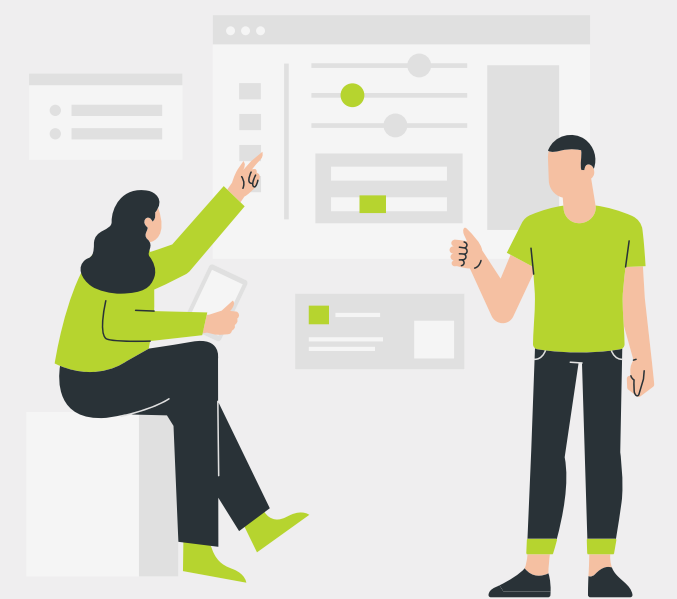

Average 28% revenue growth per year since 2020.
